

New ID in 2016: no digital document anymore

An important decision from the Grand Ducal Cabinet about the Flandrensisian ID. Since the foundation of Flandrensis every new citizen received a digital ID-card. Actually a very simple method: an PowerPoint file that they can print and plasticizing for in their wallet. Sometimes people expected more, but there are a lot of examples of micronations who produced and sell professional looking documents, but later were victim of criminals who sell them to ignorant refugees as passports of real existing countries. The Government is aware of the refugee crisis in Europe and one of our priorities is to avoid abuse of Flandrensisian documents.

Therefore the Grand Ducal Cabinet decided that from 2016 we will follow the English system, new citizens will be registered but will not receive automatically a digital file with an ID. But citizens who want a Flandrensisian ID (there is a new design) can request one (not an obligation), the Ministry of Internal Affairs will print one and send it by post for the price of 2,50 FL (exl. shipping). The printed ID's will have an unique code, with this method the government avoid that people share the Flandrensisian digital ID and remain its control on the system.

Flandrensis in 2016 debt-free!

Great news from the Ministry of Finances & Economy. Since the foundation of the National Bank of Flandrensis (begin 2014) the national dept is reduced with 80%! The forecast of the economists are that the Grand Duchy will be debt-free in 2016! This was only possible thanks to Minister Gwendolien de Loungville and the corporation with the Ministry of Culture and the investors.

All Flandrensisians are knights!

By joining our worldwide community our citizens pledged to protect the earth, respect the environment and all living things. They share the Flandrensisian believe that that Antarctica is one of the few places on this planet to remain relatively untouched by humans and that it should remain a nature preserve only available for scientific research well beyond the expiration of the Antarctic Treaty in 2048.

Therefore the Grand Duke of Flandrensis grants to all current and future citizens of Flandrensis the title of Knight in the Order of The Melting Mountain This new Order symbolizes our fight to protect Antarctica! This honour is an worldwide initiative of the Grand Duchy of Flandrensis to create awareness for global warming and its impact on our world and life.

Flandrensis condemns attacks in Paris

After the horrible attacks in Paris on 13 November 2015 the Flandrensisian Grand Duke send a message to the Flandrensisian community in France. Luckily, nobody from them or their family were amongst the victims.

“We are shocked by the terrorist attacks in Paris, furious about the barbarian actions of those extremists! We hope that our micronational friends and fellow Flandrensisians in France and Paris are safe!”

We hope that everything is fine with you and there aren't any friends or family amongst the victims. Flandrensis is a multicultural micronation with a lot of diversity, we hope that the actions of a few monster will not influence peoples behavior toward the real Muslim community. Our sympathies go to the French community, France will have some dark times but you all live in the country of Liberté, égalité, fraternité.”
